Earn Qantas Points on Isuzu Parts when you become an ...

Thanks to our partnership with Qantas Business Rewards, your business can earn Qantas Points as an Isuzu Trade Mate*. When you become an Isuzu Trade Mate member your business will earn 1 Qantas Point for every dollar you spend on eligible Isuzu Truck parts or accessories purchased from participating authorised Isuzu Dealers.

Apply now to earn Qantas Points for your business*.

Terms and Conditions apply.

To find out more scan the code or visit parts.isuzu.com.au/isuzu-trade-program

Reward your business for purchasing Isuzu Truck parts and accessories..

Your business can use Qantas Points earned on a range of rewards including booking flights, upgrades and more. Or you can transfer your business's Qantas Points to any Qantas Frequent Flyer account to use on car hire, hotels, wine or choose from over 20,000 products at the Qantas Marketplace*.

Enhanced Protection with Isuzu's Next Gen Plus Engine Oil

As Australia's leading truck manufacturer, Isuzu Trucks is heavily invested in the health of every vehicle that's sold out of its national dealer network.

Of particular importance is the protection of the engine: the beating heart of the truck.

Isuzu Trucks offers customers high-quality lubricants, rolling out a new advanced formula of its Next Gen Plus 10W-40 diesel engine oil developed in collaboration with global engine performance experts, Fuchs Lubricants.

The new Isuzu Next Gen Plus 10W-40 engine oil adheres to the latest E8/E11 ACEA (European Automobile Manufacturers Association) specification and approval process.

Using a carefully chosen base stock formulation and premium additives that meet the demands of Euro 5 & 6 engine requirements, it has been engineered to reduce oxidation and assist with piston cleanliness, decreasing soot and carbon build-up,

The new Isuzu Next Gen Plus 10W-40 engine oil is recommended for use in Isuzu Trucks and has wider appeal across a range of other commercial vehicles including those with Exhaust Gas Recirculation (EGR), Diesel Oxidation Catalyst (DOC) systems and Diesel Particulate Filter (DPF) exhaust after-treatment systems, making it a staple for any automotive workshop.

Industry leading partnerships

With Isuzu Trucks celebrating its position as market leader for the 34th consecutive year, keeping trucks in peak condition and customers supported with top-quality consumables is important for the brand.

Isuzu maintains close industry partnerships with Original Equipment Manufacturers (OEMs) such as Fuchs Lubricants to achieve this.

"IAL has worked closely with Fuchs Lubricants over many years to develop a range of lubricants that offer superior results above and beyond those of any other aftermarket option," commented Isuzu Australia Limited (IAL) National Parts Sales Manager, Joel Gledhill.

"Isuzu lubricants are designed to assist in the reduction of exhaust emissions, helping to provide a cleaner environment along with fine tuning the day-to-day running of our customers' trucks.

"Not only is the new Isuzu Next Gen Plus engine oil an important advancement to our product offering but evidence of the continued success of the collaboration with our long-term industry partner, Fuchs Lubricants."

James Challis, Fuchs National Key Account Manager – OEM Genuine Brands, commented, "Our partnership creates value for all parties, with the customer always the priority.

"Fuchs Lubricants is the world's largest independent lubricants manufacturer with a focus on providing the best 'fit for purpose' lubricants for OEM customers like Isuzu.

"We are a global company with local knowledge, which is something Isuzu values highly," Mr Challis continued.

"Likewise, we value our ongoing partnership with Australia's biggest truck brand, as our combined focus remains on delivering great products for those working out on the road with the new Isuzu Next Gen Plus oil an excellent example of this."

Maximum protection.

The new Next Gen Plus 10W-40 E8/E11 engine oil exercises low volatility whilst in operation, reducing viscosity breakdown and oil consumption even under high temperatures—translating to fuel savings.

It has been tailored for tough Australian conditions, with Isuzu conducting successful local trials with exceptional results.

"Our Next Gen Plus engine oil has been trialed locally with excellent results recorded in the most severe and punishing of applications, such as refuse recovery and agitation," said Mr Gledhill.

"Our new product provides the same great functionality as previous formulas while increasing engine performance and enhancing overall engine health."

Next generation range

Fuchs and Isuzu have also collaborated on a lubricants such as transmission and gear oils, hydraulic oils, coolant, grease and a number of other cleaners and workshop consumables.

This includes Isuzu's Diesel Gold 15W-40 suitable for all Euro 3 rated truck brands and Next Gen Light Commercial oil for use in light diesel applications.

Mr Gledhill said the impact of using high-quality OEM lubricants shouldn't be overlooked by any truck owner.

"Whether you are a savvy fleet manager or a solo trade operator, I would encourage all truck owners to view using genuine OEM products as a long-term investment in equipment," he said.

"Using a high-quality engine oil such as Next Gen Plus is proven to help protect your engine from wear, heat, corrosion, and contamination, while improving performance and efficiency of the engine.

"This all leads to smoother operation and reduced maintenance costs over time, contributing to a better whole-of-life ownership experience."

ISUZU SERVICE AGREEMENTS

Zero-stress servicing. Brought to you by Isuzu.

No business wants big, unexpected bills. But with an Isuzu service agreement, you can flatten your truck servicing costs into a predictable monthly payment (or upfront fee with Isuzu Essentials). You'll also be part of one of Australia's biggest dealer networks, so you can book a service at locations around the country. With the new Chain of Responsibility laws, proper servicing will protect your business. Lastly, service agreements come with Isuzu Care, Australia's most comprehensive truck customer care programme.

To find out more, see your nearest dealer or visit isuzu.com.au/care-support/service-agreements.

Ask your local Isuzu dealer about which service agreement is right for you.

DEALER NETWORK

Isuzu has Australia's biggest dealer network. If you book into any Isuzu Service Centre nationwide, they'll have access to your truck's comprehensive service history

ISUZU CARE

Australia's most comprehensive truck customer care programme, Isuzu Care has a team of service specialists to ensure that owning your Isuzu is a great experience. To contact them, just freecall 1800 035 640.

STREAMLINED PROCESS

Maintaining your trucks under a Priority Service Agreement is quick and easy. With prearranged payments, you won't have to worry about the hassle of arranging finances before your drivers drop off and pick up trucks on the day of the service.

CHAIN OF RESPONSIBILITY & NHVR

With a Priority Service Agreement, you're clearly demonstrating that you've pre-planned your fleet maintenance and have put established procedures in place. That means establishing NHVR (National Heavy Vehicle Regulator) fleet maintenance requirements couldn't be easier.

ONLY THE BEST SERVICE AND PARTS

Using a combination of the latest diagnostic software and Isuzu-approved parts, our qualified Isuzu technicians will keep your truck in tip-top condition.

REDUCE TOTAL COST OF OWNERSHIP

Better servicing helps reduce unforeseen overheads and results in more reliable, fuel-efficient trucks. And that means less downtime and lower total cost of ownership.

FACTORY TRAINED TECHNICIANS

Why would you trust your Isuzu to anyone but an Isuzu-trained technician? With meticulous training tailored specifically to Isuzu trucks, our team carries out servicing and repairs to manufacturer-documented standards (and that means the highest level possible!).

RESALE VALUE

Thanks to the comprehensive service history you receive from Isuzu, you'll always get the best price for your truck when the time comes for an upgrade.

Isuzu Trucks Dealer Network

Isuzu has the largest truck dealer network in the country, with all 70 locations providing the highest quality Genuine Parts, backed by industry-leading support and warranty. This all means reduced downtime for our customers, freeing them up to focus on the important stuff. And when the parts are fitted by an authorised Isuzu technician, you'll be helping extend the working life of your truck and getting peace-of-mind that money just can't buy. Because reliability is everything!
